

North Dakota

NAEP data on North Dakota was not sufficient to draw enough conclusions on the Excellence Gaps for White, Black, and Hispanic students. However, Free and Reduced Lunch Eligible (FARM) students' data was reported.

According to NAEP data, there was a decrease in White students at the advanced level in Grade 8 Reading. There was a slight increase the percentage of White students in both Grade 4 and Grade 8 Math. Again, in Math FARM students in Grade 4 and Grade 8 did not record any changes in the 2007 and 2011 data but non-FARM students recorded an increase in their percentage thus widening the Excellence Gap. In Reading, non-FARM students did not record any changes in Grade 4 between 2003 and 2011 but in Grade 8, non-FARM students had a lower percentage in 2011 than they did in 2003.

North Dakota State Assessment showed a decline in percentages at advanced level across ethnic groups. Black and Hispanic students recorded drastic decreases in percentages between 2009 and 2011. Although there was a decrease across ethnic groups, the Excellence Gap continued to increase amongst ethnic subgroups. Again it should be noted that NAEP did not have data for Black and Hispanic students but the state assessments recorded sizable data for Black and Hispanic students.
